RE: Support for Diesel Free by '33

Dear Mr. Broadbent:

On behalf of the Windsor Town Council, I am writing to express our strong support for *Diesel Free by '33* to reduce diesel emissions in local communities throughout California.

We understand the need to work together to progressively work toward achieving the goal of reaching zero diesel emissions in our communities. The actions taken to eliminate the effects of diesel exhaust to public health and climate change are critical to sustaining viable cities and towns.

The Town of Windsor is a community of about 27,000 situated North of Santa Rosa, and within two miles of the Sonoma County Airport. Windsor takes great pride in being a leader in Climate Protection action and awareness.

The Town continuously looks for innovative ways to improve the community's quality of life and we gladly support adopting tangible strategies to eliminate diesel emissions and black carbon from our communities.

Sincerely,

Bruce Okrepkie, Mayor
Town of Windsor
